

## Class Requirements Year 5 and Year 6 2022

December 2021

Many parents like to have their child ready for school on the first day of the new year. Listed below are some basic items that will be needed to function effectively in class. Most of these items are consumables. The list below should include enough of the consumables to last the entire year. Teachers will collect the supplies and distribute to students at the start of each term. There are many opportunities with BACK TO SCHOOL specials that help keep costs to a minimum. Only these basic stationery items are required. Other items (such as fancy rubbers) will be sent home for home use as they can become distracting for students.
